

Cumbrae Voyages adds Mountain Biking Options to their Events

During 2007 we will be offering a range of Mountain Biking options to our Events and Services. The bikes are all new and high quality brand bikes. These will be serviced in our new workshop by a qualified bike technician. The most exciting prospect is our Downhill Mountain Biking where we take you uphill by 4x4 vehicles or minibus to a great location and you can enjoy a mostly downhill experience. These trips for groups will normally be guided / instructed although there is the option to just use the route maps we supply.
